Dear Patient,

Thank you for choosing us to assist in your health care! In order to better serve you, please have the following materials ready for Dr. Hooley before your office visit:

- Appropriate triage form (neck/arm, back/leg, or pediatric)
- Signed consent for treatment
- Previous xrays, CT scans, MRI studies, etc. including reports
- Medical records of all previous spine surgeries
- Records of physician office visits for this condition

If all forms and records are not completed and available before your appointment time, we may need to reschedule your office visit.

Sincerely,

The Team at Canyon View Orthopedics
